

South Group 4 Fire

SCAT-RAT Daily Summary

Date: 12/3/2019

Prepared by: Robert Simmons, SCAT Coordinator, CTEH

Team 1 Lead – Ernie Shirley, CTEH

Team Members

- Hope Davila-TCEQ
- MST3 Vinson-USCG

Activity Today: Point observations along the right descending bank of the 001 outfall canal in Division A as well as observations of oil on the water

Significant Comments/Observations: Ops reports have completed an initial flushing pass thru Div A, and the reduction in observable oil was noticeable. Remaining accumulations of oil on water is becoming more weathered and emulsified.

Team 2 Lead – Lani Dorow, CTEH

Team Members

- Paul Gracianette-CTEH
- Abel Garcia-TCEQ
- Christos Giakoumakos-USCG
- Chase Stark – Clean Harbors (Op rep escort, not official team member)

Activity Today: Point observations along the left descending bank of the 001 outfall canal in Division A.

Significant Comments/Observations: Same as above. The interaction with Ops rep was helpful.

Planned Activity for Tomorrow: Teams 1 & 2 to continue point observations in remaining unsurveyed shoreline in Division B, then continuing to Division C, and then to Division E if time permits.
